

**Amendments to Specification**

Please amend the paragraph at page 4, lines 22-30, as follows:

In one embodiment, the present invention is a plasticized PVB sheet composition comprising from about 30 to about 50 pph of a plasticizer. PVB can be manufactured according to known processes. For example, U.S. Patent Number 3,153,009 describes a process for commercial manufacture of PVB. U.S. Patent Number 4,696,971 also describes a process for manufacturing PVB wherein sodium ~~diethylsulfosuccinate~~ dioctyl sulfosuccinate (DOSS) is used as a surfactant.
